- Technology Integration & Skill Development
- Holistic Development Environment
- Safe, Supportive, and Inclusive Campus
- Strong Institutional Linkages
- Comprehensive Guidance and Placement Support

I'm Karishma Agrawal from Damak. Few years, back as I completed my plus two education, I was actually worried about my further academic career. Acting upon the concern and advice from my parents, I was planning to go to Kathmandu to join Bachelor's Degree in a prestigious college. But then, I decided to pay a visit to Model College, which had a good reputation in local level. After being convinced, I joined Model College and rest has become a history.

During my stay in Model College. I was really impressed by the friendly behaviour of the teachers and college adminstration. I also want to appreciate the culture of working together in group with the spirit of dedication and cooperation. Eventually, it has reflected in my results as well. Now, I can proudly say that I'm the Gold Medalist of the batch of 2077, and I'm a proud modelean as well.

I want to share this grand success with my parents, teachers, and the college itself, who have provided a better environment and laid the foundation of my success.

Karishma Agrawal
